JOSE DANIEL AGUDELO AGUIRRE

FullStack Web Developer

+57 3206724252 • Sabaneta, Colombia• daniel.agudelo185@gmail.com • [portfolio](#) • [GitHub](#) • [LinkedIn](#)

FullStack Web Developer focused on Frontend with two years of experience developing web applications using technology such as **React, Next.js, Node.js, Express.js, JavaScript, and PostgreSQL**. I have worked with tools such as **Axios, Git, SVN, Figma, and Jira**. I have collaborated in several teams standing out for my teamwork, collaboration and charisma. At Henry, I earned a badge for excellent teamwork. These experiences have improved my communication skills, allowing me to be assertive and empathetic. I am a motivated and self-taught developer, always looking to improve the quality of my code. I constantly adopt best practices and face challenges that allow me to evolve my skills. I seek opportunities to contribute to challenging projects and collaborate with dynamic and talented teams.

Contact me if you are looking for a passionate and committed web developer.

EXPERIENCE

FRONTEND DEVELOPER (March 2025 - Present)
BluRealty

-Responsible for building and evolving web platforms using **React**, **Node.js**, and **Firebase**, applying best practices in architecture and scalability.
-Designed and developed responsive, user-focused interfaces with **Tailwind CSS**, ensuring a seamless UX across devices.
-Integrated external services such as **Zoho** and **Zuper** to automate internal workflows and improve operational efficiency.
-Developed complex features by consuming and integrating **REST APIs**, managing authentication, and implementing custom business logic.
